Mr. Daniel Weiss
30 West 60th Street
New York 23, N. Y.

Dear Mr. Weiss:

I submitted to Dr. Wirts, along with the subject of my talk, a request to set up a scientific exhibit which will further illustrate the talk. He informs me that the application for an exhibit should be addressed to you. The title of the exhibit would be "Recent Experimental and Clinical Experiences with Antacid Therapy in Peptic Ulcer" and we would want a space of about eight to twelve feet in length.

Hope you are fine. Will look forward to seeing you next fall.

Very truly yours,

Leonidas H. Berry, M.D.
